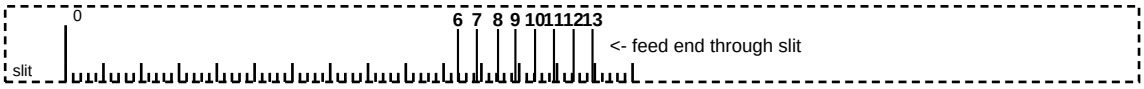
aiOn Printable Ring Sizer

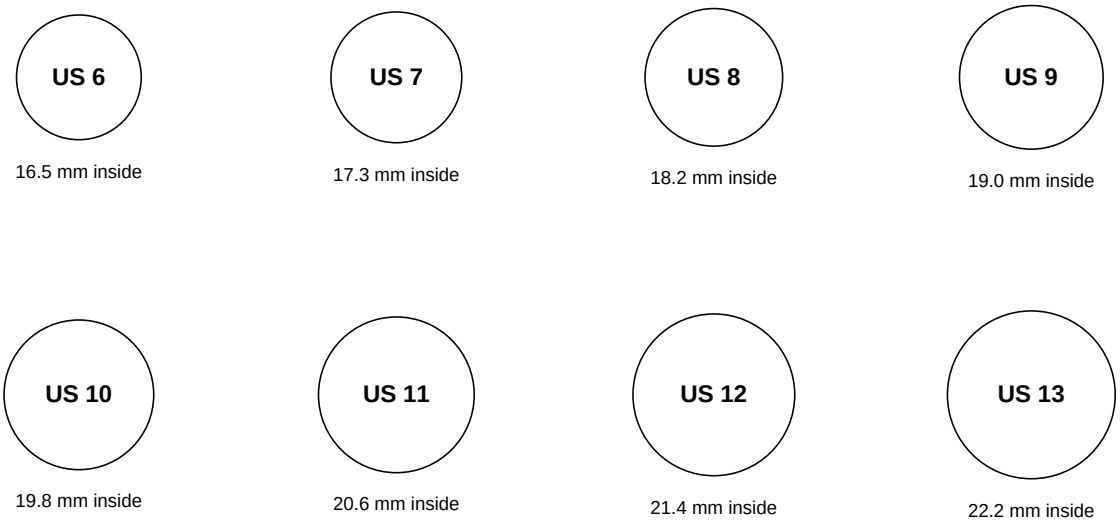
Print at 100% / 'Actual size' (do NOT 'Fit to page'). Check the 50 mm line below with a ruler before use.
Your aiOn Ring comes in whole US sizes 6-13. Between two sizes? Choose the larger one.

1. Check your print: this line must measure exactly 50 mm

2. Paper strip sizer: cut out, cut the slit, wrap around the base of your finger



3. Ring circle sizer: lay a ring that fits you on the circles. The inner edge of the ring should match the line.



Measure at the end of the day when fingers are warmest; remove other rings. For general wellness use; not a medical device.
